PROJECT DESCRIPTION

Projections indicate that student enrollment at Burtonsville Elementary School will exceed capacity by the end of the six-year planning period. An FY 2023 appropriation was requested for planning funds to begin this project. Due to fiscal constraints, the County Council delayed the completion date for this project by two years, but maintained a portion of the planning funds. As part of the adopted FY2023-2028 CIP, an additional $3.0 million from the county executive's Prevailing Wage and Built to Learn Act PDFs was included in this project to maximize state aid. An FY 2024 appropriation and an amendment to the FY2023-2028 CIP was approved to construct a new Burtonsville ES at another location instead of building an addition at the existing school at the current location. An FY 2025 appropriation was approved for construction cost increases and for the balance of funding for this project. As a result of the relocation of Burtonsville ES, the completion date was accelerated one year, therefore, the scheduled completion date is August 2026.

FISCAL NOTE

Final State Aid approved for $32,625,000 under the County's allocation of the Built To Learn Act school construction program which includes $2,718,000 for a net zero energy add-on. FY25 supplemental in State Aid for the amount of $1,285,000 from the Decarbonizing Public Schools Program.

FY27 transfer into project of $2.0 million in G.O. Bonds from the MCPS Unliquidated Surplus Account.

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project provides for the systematic replacement of heating, ventilating, air conditioning, automated temperature controls, and plumbing systems for MCPS facilities. This replacement approach is based on indoor environmental quality (IEQ), energy performance, and maintenance data. Qualifying systems and/or components are selected based on the above criteria and are prioritized within the CIP through a rating system formula. MCPS is participating in interagency planning and review to share successful and cost effective approaches. The Indoor Air Quality and Energy Conservation projects are now merged with this project to better reflect the coordination of work performed. The work-years reflected in this project are from that merger. An FY 2023 appropriation was approved for mechanical systems upgrades and/or replacements at various schools throughout the county. However, the County Council, in the adopted FY2023-2028 CIP decreased expenditures in FY2023, therefore, the number of projects to be completed were reduced to align with the approved expenditures. Implementation of this program will also be based on implications of construction cost increases and supply chain interruptions. An FY 2024 appropriation and amendment to the FY 2023-2028 CIP was requested to address the backlog of HVAC projects and provide additional funding due to the impact on construction costs as a result of the COVID-19 pandemic. An FY2023 supplemental appropriation of $25 million was approved to accelerate a portion of the FY2024 request to be able to order materials earlier due to supply chain interruptions. As part of the FY2025-230 CIP, work-years previously shown in this project have been shifted to the Healthy Schools project to align with the work performed. As part of the County Council approved FY2025-2030 CIP, additional expenditures were included in the out-years to reflect a level of effort funding through the six-year CIP. An FY 2025 appropriation was approved to address the backlog of HVAC projects and provide mechanical systems upgrades and/or replacement for facilities throughout the school system. The appropriation will also fund replacement of automatic temperature controls at schools throughout the county. An FY 2026 appropriation of $39.5 million was approved by the County Council. This amendment, an increase of $4.5 million to the approved CIP, will allow for the completion of one more HVAC project. An FY 2027 appropriation was approved to address the significant backlog of HVAC projects. MCPS expects to significantly increase this level of effort project in the upcoming years.

FISCAL NOTE

Reflects MCPS correction for funding allocations prior to FY19. FY20 supplemental in State Aid for $367,850 from the Maryland's Healthy Schools Facility Fund. FY21 supplemental in Recordation Tax for the amount of $3,000,000 to enhance the HVAC systems and improve indoor air quality to support COVID-19 recovery planning. FY23 State Aid award for $19.250 million for multiple years. FY23 supplemental in G.O. Bonds and State Aid for the amount of $25,000,000 to accelerate FY24 appropriation. The cost of the project and cumulative appropriation were reduced by $14.698 million due to FY21 & FY22 reversions. Additional reversions from FY23 had no impact in the cost of the project. In FY26, funding switch to increase State Aid and reduce GO Bonds to reflect the Enrollment Growth and Relocatable Classrooms Supplemental Grant Program without requiring a local match as approved by the General Assembly (HB351) and additional

traditional State Aid awarded in FY26 for $578,000. In FY27, funding switch of $10.105 million from GO Bonds and GO Bond Premium.

From the County's Income Tax Offset Credit (ITOC), $8 million in Current Revenue: General was programmed in MCPS projects, $5.3 million in HVAC (Mechanical Systems) Replacement: MCPS, and $2.7 million in School Security Systems. Appropriations for these projects were allocated in FY27 ($3.275 million) and in FY28 ($4.725 million). FY27 transfer into project of $5,290,637 in G.O. Bonds from MCPS Unliquidated Surplus Account.

PROJECT DESCRIPTION

A comprehensive capacity study to address overutilization at several elementary schools in the lower section of the Downcounty Consortium was conducted during the 2014-2015 school year. This capacity study included the following schools: East Silver Spring, Forest Knolls, Highland View, Montgomery Knolls, New Hampshire Estates, Oak View, Takoma Park, Pine Crest, Piney Branch, Rolling Terrace, Sligo Creek, and Woodlin elementary schools. As a result of the capacity study, it was determined that a four classroom addition project would be constructed at Montgomery Knolls Elementary School to relieve the overutilization at Forest Knolls Elementary School. An FY 2017 appropriation was approved to begin the planning for this addition. An FY 2019 appropriation was approved for construction funds. An FY 2020 appropriation was approved for the balance of funding for this addition. The FY 2021-2026 CIP includes additional funding for this project beyond the approved level of funding. An FY 2021 appropriation was approved to complete this construction project. This project is scheduled to be completed September 2020.

PROJECT DESCRIPTION

Projections indicate that enrollment will exceed capacity by the end of the six-year planning period. In addition, based on the KFI assessment data, various building systems upgrades/replacements and programmatic requirements are needed for this school. Therefore, the requested FY 2021-2026 CIP included funding for a Major Capital Project at this school. An FY 2021 appropriation was approved for the architectural planning and design for this project. An FY 2022 appropriation was approved for construction funds. An FY 2023 appropriation was approved to complete this project. This Major Capital Project is scheduled to be completed August 2024.

FISCAL NOTE

State Aid approved from the County's allocation of the Built To Learn Act school construction program. Additional State Aid to be approved in the request for FY24. FY23 supplemental in G.O. Bonds for the amount of $12,000,000.

DISCLOSURES

FY27 transfer of $1.5 million in G.O. Bonds to MCPS Unliquidated Surplus Account.

PROJECT DESCRIPTION

Project formerly known as Col. E. Brooke Lee MS Addition/ Facility Upgrade. Projections indicate that enrollment at Odessa Shannon Middle School will exceed capacity by the end of the six-year planning period. The approved CIP included an addition for this school, as well as future expenditures for a revitalization/expansion project. The addition project also will require reconfiguration of existing spaces and building systems upgrades to accommodate the larger numbers of students. Therefore, the Board of Education's requested FY 2019-2024 CIP included that the scope of the addition project be expanded to include these infrastructure and system upgrades while construction is on-site to make better use of fiscal resources. An FY 2019 appropriation was approved to begin planning this addition and facility upgrades project. An FY 2020 appropriation was approved for construction funds. The requested FY 2021-2026 CIP reflects an expanded scope for this project from an addition/facility upgrade to a replacement project, taking two years to construct. Therefore, the completion date is updated to September 2022 to reflect the full project scope. An FY 2021 appropriation was approved for the balance of construction funding. An FY 2022 appropriation was approved to complete this project. This project is scheduled to be completed August 2022.

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

Projections indicate that enrollment at Parkland Middle School will exceed capacity by 180 seats by the end of the six-year planning period. Therefore, the Board of Education's requested FY 2019-2024 CIP included funds for an addition project at this school. An FY 2019 appropriation was requested to begin planning this project. This project was scheduled to be completed September 2021. However, due to fiscal constraints, the County Council approved a one-year delay for this project. The Board of Education, in the amended FY 2019-2024 CIP, requested an FY 2020 appropriation for planning funds. Due to fiscal constraints, the County Council approved a one-year delay for this project. An FY 2021 appropriation was approved for planning funds. An FY 2022 appropriation was approved for construction funds. As part of the FY2023-2028 CIP, an additional $3.6 million from the county executive's Prevailing Wage and Built to Learn Act PDFs was included in this project to maximize state aid. An FY 2023 appropriation was approved to complete this project. This project is scheduled to be completed August 2023. A transfer of $1 million from this project will go towards the Charles W. Woodward High School reopening project to address a local funding gap due to reduced state aid eligibility. This transfer will not affect this project's scope of work.

FISCAL NOTE

State Aid approved under the Built To Learn Act for school construction program.

FY27 transfer of $617,183 in G.O. Bonds to MCPS Unliquidated Surplus Account.

PROJECT DESCRIPTION

Projections indicate that enrollment will exceed capacity throughout the six-year planning period at Somerset Elementary School. Due to the small site size and site limitations at Somerset Elementary School, an addition at Westbrook Elementary School is requested to relieve the overutilization at Somerset Elementary School. When Westbrook Elementary School was modernized, a classroom shell was included in the construction project. This request is to build-out the classroom shell to accommodate students from Somerset Elementary School. An FY 2021 appropriation was requested for the build-out of the classroom shell. Due to fiscal constraints, the County Council, in the adopted FY2021-2026 CIP removed all expenditures for this project. The Bethesda Elementary School service area is adjacent to the Somerset Elementary School service area and will remain overutilized for the six-year planning period. The adopted CIP included funds for an addition at Bethesda Elementary School to address the overutilization. As part of the *Board of Education's Requested FY 2022 Capital Budget and Amendments to the FY 2021-2026 CIP* process, the Board of Education reexamined the available capacity at Westbrook Elementary School and the additional capacity gained with the addition at this school. As a result, the Board of Education's requested amended CIP included removal of the planning and construction funds from the Bethesda Elementary School addition project and a reallocation of a portion of those funds for the shell build-out to address the overutilization at both Bethesda and Somerset elementary schools. An FY 2022 appropriation and amendment to the FY2021-2026 CIP was approved to construct this shell build-out. An FY 2023 appropriation was approved to complete this project. This project is scheduled to be completed August 2022. A transfer of $3.4 million from this project will go towards the Charles W. Woodward High School reopening project to address a local funding gap due to reduced state aid eligibility. This transfer will not affect this project's scope of work.

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

Fiscal Note: FY27 transfer of $103,206 in G.O. Bonds to MCPS Unliquidated Surplus Account.
