**SUBJECT:** Twelve Corrective Map Amendments (G-915 through G-926) to Correct Technical Errors in Zoning Boundaries and Classifications

**OPINION**

Twelve Corrective Map Amendment Applications (G-915 to G-926) were filed on October 19, 2012 by the Maryland-National Capital Park and Planning Commission to correct mapping errors in the official Zoning Map. The Corrective Map Amendments (CMAs) would correct technical errors that led to inaccurate depictions of the zoning boundaries and zoning classifications for certain properties on the official zoning maps. These technical errors were discovered by Maryland-National Capital Park and Planning (M-NCPPC) staff during a comprehensive review of all zoning boundaries within Montgomery County. This occurred during the conversion of hand-drawn maps to a set of new maps generated through Geographic Information Systems (GIS). The map amendments relate to those parcels of land where zoning was withheld from private properties along certain rights-of-way between 1958 and 1969.

Corrective Map Amendment Applications G-915 to G-926 were the subject of a public hearing held by the District Council on January 22, 2013. The Council did not receive any testimony in opposition to the CMAs. The Corrective Map Amendments, the Planning Departmental staff analysis, and the revisions to the zoning maps were carefully considered by the District Council at a worksession held January 22, 2013. The Corrective Map Amendments were submitted as technical in nature and only for the purpose of correcting zoning errors in the official Zoning Map.

For these reasons, and because to grant this application will aid in the accomplishment of a coordinated, comprehensive adjusted and systematic development of the Maryland-Washington Regional District, this application will be GRANTED, as filed.
