COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND
SITTING AS THE MONTGOMERY COUNTY BOARD OF HEALTH

Lead Sponsor: County Council

SUBJECT: Amended Board of Health Regulation to prevent the spread of COVID-19, and indoor mask guidance in Montgomery County

Background

1. Lawrence J. Hogan, the Governor of the State of Maryland declared a state of emergency and catastrophic health emergency, on March 5, 2020, to control and prevent the spread of SARS-CoV-2, a contagious disease, also known as COVID-19, within Maryland. The Governor’s declaration expired on August 15, 2021.

2. On July 27, 2021 the U.S. Centers for Disease Control and Prevention (CDC), citing new data regarding the highly contagious Delta variant, recommended that persons residing in areas of substantial or high transmission of COVID-19 return to wearing masks in indoor public spaces.

3. Montgomery County was an area of substantial transmission as of August 5, 2021, and an area of high transmission as of September 1, 2021. On October 21, 2021, the County improved to a status of moderate transmission. Only a few days later, on October 30, 2021, the County reentered a status of substantial transmission.

4. Under the Board of Health Regulation adopted on August 5, 2021, through Resolution No. 19-975, an indoor mask requirement for public spaces within the County was triggered, effective August 7, 2021, following a notification by the Health Officer to the public that the County had entered a status of substantial transmission. On October 28, 2021, the indoor mask requirement was terminated under the regulation, following the Acting Health Officer’s notification to the public that the County had returned to a status of moderate transmission for 7 consecutive days.

5. On October 30, 2021, only two days after the mask requirement was lifted, the County reentered a status of substantial transmission, and the Acting Health Officer notified the public that – subject to any action to the contrary taken by the Board of Health – the mask requirement would be reinstated effective November 3, 2021 at 12:01 a.m.

6. The quickly fluctuating transmission levels, and accompanying fluctuations in the indoor mask requirement for public spaces, have caused uncertainty and confusion among members of the public. The uncertainty and confusion are not conducive to the public health. Moreover, only one day of substantial transmission is not sufficient to justify
altering the indoor mask requirement from a public health perspective.

7. After consultation with the Acting Health Officer, the Board of Health finds that 7 consecutive days of substantial transmission would be a reasonable and appropriate metric to trigger a reinstatement of the indoor mask requirement in public spaces. This metric would be in the best interests of the public health.

8. Therefore, the indoor mask requirement for public spaces will not be reinstated unless and until the County has been in a status of substantial transmission for 7 consecutive days.

9. The lengthened time period – to 7 consecutive days for substantial transmission – not only will reduce uncertainty for the public, but it also will provide a more accurate picture of trends in the County’s public health situation. The public health situation in the County has been aided tremendously by high vaccination rates among eligible County residents, and will be aided further by the expected widespread vaccination of newly eligible 5-to-11-year old children.

10. Pursuant to Md. Code Ann. Local Government §10-328(b) a county may provide for the prevention of contagious diseases in the county.

11. A local Board of Health may, pursuant to Md. Code Ann. Health Gen. §3-202(d), adopt and enforce rules and regulations on any cause of disease in the county.

12. Pursuant to Montgomery County Code 2-65, the Montgomery County Council is and may act as the County Board of Health.

13. Rule 4(d) of the Council’s Rules of Procedure provides that before the Board of Health adopts a regulation, the Council President must advertise a public hearing in a newspaper circulated throughout the County at least 15 days before the hearing and notify the governing body or chief executive officer of each municipality in the County at least 15 days before the hearing. Rule 4(d) allows the President to waive these notice provisions if a public health emergency requires immediate action. The Council President has waived these notice requirements because of the public health emergency caused by COVID-19.

14. The County Council, sitting as the Board of Health, finds after hearing the testimony and other evidence in the record of the public hearing that this amended public health regulation is necessary to protect the health of County residents.

**Action**

The County Council for Montgomery County, Maryland, sitting as the County Board of Health, finds that an emergency exists and approves the following amendments to the Board of Health regulation adopted on August 5, 2021 under Resolution No. 19-975:
1. Definitions.
   
a. **County employee** means an individual employed by the County, regardless of the individual’s merit system status or representation by an employee organization.

b. **COVID-19 test** means a diagnostic test authorized by the Food and Drug Administration to detect whether an individual has a SARS-CoV-2 infection.

c. **Face covering** means a covering that fully covers a person’s nose, mouth, and chin and is secured to the person’s head, including cloth face coverings, scarves, and bandanas. It does not include face covering with a valve; or solely wearing a face shield.

d. **Moderate transmission** means 10-49.99 total new cases per 100,000 persons in the past 7 days or 5-7.99% test positivity during the past 7 days.

e. **Public transportation** means shared-ride surface transportation services that are open to the general public, including without limitation, taxi services, ride-sharing services, car services, and transit services operating within Montgomery County. Examples of public transportation include Ride-On bus service, WMATA bus and train service, MARC train service, and Mobility and Paratransit services.

f. **Substantial transmission** means 50-99.99 total new cases per 100,000 persons in the past 7 days or 8-9.99% test positivity during the past 7 days.

2. Face Coverings.

a. **Requirement to Wear Face Coverings.** Upon notice by the Health Officer or his designee under paragraph 3. that the County has [become] been an area of substantial transmission for 7 consecutive days, and without further action by the Board of Health:
   
i. All persons in the County over the age of two (2) years old must wear face coverings indoors at any location accessible to the public.

b. **Exceptions.** Paragraph 2.a. does not require persons to wear face coverings:
   
i. if, due to a bona fide disability or medical condition, it would be unsafe for the person to do so;

   ii. to the extent wearing a face covering would impede communication
by or with persons who have a hearing impairment or other
disability, where the ability to see the mouth is essential for
communication;

iii. if wearing a face covering would subject the person to an unsafe
working condition, as determined by federal, state, or local
occupational safety regulators or workplace safety guidelines;

iv. to the extent wearing a face covering would make it impossible to
receive services requiring access to the face, mouth, or head,
including without limitation, dental care, shaving, and facial
treatments;

v. while consuming food or beverages;

vi. while swimming or engaging in other physical activities where the
use of a Face Covering is likely to pose a bona fide safety risk;

vii. while operating any public transportation conveyance, provided that
the person is:

(1) the sole operator of the conveyance, and

(2) located in a separate compartment that is off-limits to riders;

viii. to the extent it is necessary to observe the person’s entire face to
verify such person’s identity for bona fide security purposes;

ix. when a person is giving a speech or performing for broadcast or an
audience, if no one in a location accessible to the public is within six
feet of the speaker; or

x. pursuant to a Letter of Approval by the Health Officer or his
designee under paragraph 4 of this [resolution] regulation.

c. The requirement to wear face coverings under subparagraph a. terminates,
without further action by the Board of Health, when the County returns to a
status of moderate transmission for 7 consecutive days.

3. Notice.

a. The Health Officer or his designee promptly must notify the County
Council Sitting as the Board of Health, and the County Executive, of any
change in the County’s transmission status. At least once daily, the Health
Officer or his designee must update the County website with the County’s
current community transmission status, including information on the total new cases per 100,000 persons in the past 7 days and the test positivity percentage during the past 7 days.

b. The Health Officer or [his] the Health Officer’s designee promptly must take reasonable steps to notify the public if the County has become an area of substantial transmission for 7 consecutive days. The notification:

i. must include the date and time that the [mask] face covering mandate under paragraph 2.a. takes effect pursuant to this regulation;

ii. must be posted on the County website and distributed through a press release; and

iii. must be sent, via email distribution list, to the governing body or chief executive officer of each municipality in the County.

4. Letters of Approval Consistent with CDC Guidance.

a. If a person, organization, or venue is unclear about the application of this regulation to their business, event, or activity, or seeks a modification to the face covering requirement under paragraph 2.a. consistent with CDC guidelines, they may seek a Letter of Approval from the Health Officer or [his] the Health Officer’s designee.

b. Requests for a Letter of Approval must be submitted a minimum of 5 business days before a scheduled event or activity for which a Letter of Approval is required. Failure to submit a timely request will result in an automatic denial of the Letter of Approval.

c. Failure to obtain a required Letter of Approval prior to proceeding with an event or activity will be considered to be a violation of this regulation and could subject the requestor, organization, or venue to the appropriate fines and sanctions.

d. Any person, organization, or venue that is found to have held an unauthorized event or activity without a Letter of Approval will be automatically disqualified from receiving a future Letter of Approval.

e. A Letter of Approval may be issued by the Health Officer or [his] the Health Officer’s designee only to the extent that the conditions of approval in the
Letter are consistent with CDC guidelines in place at the time the Letter is issued.

5. **County employees – COVID-19 prevention requirements.**
   
a. On or before August 20, 2021, the County Executive must report to the Board of Health regarding:
   
i. an implementation plan and schedule to require each County employee who reports to work at a County facility to:
      
A. provide to the County, on a weekly basis, proof of a negative COVID-19 test; or
      
B. attest to the County that the employee is fully vaccinated against COVID-19; and
   
ii. a method by which aggregate data on County employee vaccination and County employee COVID-19 testing will be made available to the public.
   
b. On or before August 31, 2021, and weekly thereafter, the County Executive must report to the Board of Health, and must make available to the public, aggregate data on County employee vaccination and County employee COVID-19 testing.

6. **Enforcement.** This Order must be enforced by any County department or agency that has authority over the subject matter of any particular provision and the Montgomery County Police Department.

7. **Applicability.** This regulation applies Countywide.

8. **Severability.** If the application of this regulation or any part of it to any facts or circumstances is held invalid, the rest of the regulation and its application to all other facts and circumstances is intended to remain in effect.

9. **Effective Date.** This regulation [takes] took effect on August 7, 2021 at 12:00 a.m., and the amendments to the regulation adopted on November 2, 2021 must take effect immediately upon their adoption by the Board of Health.

10. **Calculation of time; transition.**
   
a. For purposes of this regulation, the Health Officer must begin counting a period of 7 consecutive days on the day that the transmission status of the County changes according to the CDC.
b. For the period of substantial transmission that began on October 30, 2021, the Health Officer must count October 30, 2021 as “day 1” in the Health Officer’s calculation of 7 consecutive days of substantial transmission. If the County remains in a status of substantial transmission from October 30, 2021 through the end of November 5, 2021, then the Health Officer must provide notice under paragraph 3.b.

c. The notice to the public issued by the Acting Health Officer on October 30, 2021, which would have reinstated the indoor face covering requirement as of November 3, 2021 at 12:01 a.m., must be deemed null and void.

11. Termination of Regulation.

a. This regulation must terminate, and must have no further force or effect:

i. effective 12:01 a.m. on the calendar day immediately following the date that 85% or more of the County’s total population is fully vaccinated, as reported by the CDC on its COVID Data Tracker; and

ii. without any further action by the Board of Health or the Health Officer.

b. As of November 2, 2021, the CDC’s COVID Data Tracker:

i. has the homepage https://covid.cdc.gov/covid-data-tracker/#datatracker-home;

ii. reports data regarding Montgomery County at https://covid.cdc.gov/covid-data-tracker/#county-view[Maryland|24031|Risk|community_transmission_level]; and

iii. reports that 77.5 % of the County’s total population is fully vaccinated.
This is a correct copy of Council action.

Selena Mendy Singleton, Esq.,
Clerk of the Council
