PROJECT DESCRIPTION

This project funds parkland acquisitions that serve county residents on a neighborhood or community basis. The acquisitions funded under this project include local, neighborhood, neighborhood conservation area, and community-use urban parks. This project also includes funds for land surveys, appraisals, settlement expenses, site restoration, and other related acquisition costs. Acquisitions can include new parkland or additions to existing parks, and are pursued when they become available, if sufficient funds exist. To the extent possible, the Commission acquires parkland through dedication at the time of subdivision; however, to meet all parkland needs, this method must be supplemented by a direct land purchase program.

COST CHANGE

Decrease due to shift of Program Open Space (POS) to Legacy Urban Space (LUS) and other projects, partially offset in FY22 by \$1 million POS capacity made available with the delay of the Little Bennett Day Use Area to Beyond Six Years. Also reflects State Aid increase for Willett Branch Greenway acquisitions in the Westbard community.

PROJECT JUSTIFICATION

2017 Park, Recreation, and Open Space (PROS) Plan, approved by the Montgomery County Planning Board, other adopted area master plans, and functional master plans guide the local parkland acquisition program. This PDF provides latitude to acquire properties consistent with master plans and Commission policies.

OTHER

Project includes one-time costs to secure properties, e.g. removing attractive nuisances, posting properties, cleaning up sites, etc.

FISCAL NOTE

FY19 Special Appr. of \$117k Program Open Space reflecting actual revenues from the State. Prior year partial capitalization of expenditures through FY16 totaled \$25,963,000. FY13 Supplemental Appr. of \$600k in Program Open Space. FY12 Supplemental Appr. of \$1.059m Land Sale Proceeds. FY21, shifted \$1.5m/yr in Program Open Space to Legacy Urban Space (P872104).

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

The Legacy Open Space initiative identifies open space lands that should be acquired and interpreted because of exceptional natural or cultural value to current and future generations of Montgomery County residents. The project funds acquisition, easement establishment, and make fee-simple purchases of open-space lands of countywide significance. Priorities are updated during each CIP cycle but remain flexible to allow the Montgomery County Planning Board to address development threats, opportunity acquisitions, and joint funding opportunities. The County Council encourages the Commission to seek supplemental appropriations if approved CIP funding is insufficient. Non-County funding sources are expected to contribute significantly to the Legacy Open Space program. Contributions will appear in the PDF Expenditure and Funding Schedules only if the contribution is spent by the County or M-NCPPC. Donations of land or non-County funded payments that go directly to property owners are not included. The combination of these non-County and County funds have resulted in the successful protection of over 5,300 acres of open space in the County, including over 3,800 acres of new parkland.

COST CHANGE

Beyond Six Year costs increased to maintain the historical project balance of \$100 million.

PROJECT JUSTIFICATION

The Vision 2030 Strategic Plan for Parks and Recreation in Montgomery County (2010) and the 2017 Park, Recreation and Open Space (PROS) Plan recommend placing priority on conservation of natural open spaces, protection of heritage resources, providing critical urban open spaces, and expanded interpretive activities in parks. Legacy Open Space: Open Space Conservation in the 21st Century, approved by the Montgomery County Planning Board in October 1999. Legacy Open Space Functional Master Plan adopted by the County Council in July 2001.

FISCAL NOTE

FY18 reduction of \$100k in Current Revenue to reflect the FY18 Savings Plan. Modifications reflect Resolution 19-322 that was approved December 10, 2019 after the Department's CIP submission in November, 2019. The resolution provided a transfer of funds to the Acquisition: Non-Local Parks CIP project related to the acquisition of park land in Wheaton.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

The Energized Public Spaces Functional Master Plan (EPS Plan) is a countywide plan to provide public spaces within walking distance in the county's most densely populated areas. With rising populations in mixed use and higher density residential neighborhoods, parks and open space serve as "outdoor living rooms" that play a critical role in promoting livable and healthy communities, social interaction, and equity for residents of all ages and incomes. The EPS methodology provides data driven analysis that measures and prioritizes the park amenities needed to support contemplative, active recreation, and social gathering activities. The EPS Plan identifies multiple strategies to fill identified public space deficits with park activation programs, alternative providers, public-private partnerships, repurposing and improving access to existing public parkland, and acquisition of new parkland. This PDF provides the funding to acquire parkland to fill needs identified in the EPS Study Area using State of Maryland Program Open Space grants. Acquisitions will be prioritized based on multiple factors, including providing service to lower income and racially diverse areas, addressing the largest public space deficits, seizing on opportunity acquisitions, and locations of highest population growth and associated park needs. Sites within the EPS Study Area that are identified for park acquisition in other sector, master or functional plans also may be acquired with this PDF. The County Council encourages the Commission to seek supplemental appropriations if approved CIP funding is insufficient.

PROJECT DESCRIPTION

This program provides for an on-going comprehensive effort to ensure that all parks and park facilities are built, renovated, and maintained in compliance with Title II of the Americans with Disabilities Act (ADA) and the 2010 ADA Standards for Accessible Design. This program includes both the correction of deficiencies identified by the United States Department of Justice (DOJ) during its proactive Project Civic Access assessment of various park facilities, the results of a comprehensive self-evaluation process as well as efforts to comply with the revisions to Title II of the ADA, which went into effect on March 15, 2011.

COST CHANGE

Increase due to the addition of two fiscal years to this ongoing project partially offset by an FY21 affordability reduction of \$50k in Current Revenue to meet the FY21 reduction target.

PROJECT JUSTIFICATION

Montgomery County was selected by the DOJ for a Project Civic Access (PCA) review in 2006. The PCA is a proactive, ongoing initiative of the Disability Rights Section of the DOJ Civil Rights Division to ensure ADA compliance in local and state governments throughout the country. Montgomery County and M-NCPPC entered into a Settlement Agreement with DOJ on August 16, 2011, that required the County and M-NCPPC to remediate specific issues identified by DOJ within a negotiated timeline, conduct a comprehensive self-evaluation, and develop a Transition Plan for barrier removal, including efforts to comply with the updated Title II requirements. All self-evaluations were completed ahead of schedule and the Final Transition Plan submitted in August 2016 and subsequently accepted by DOJ. The Final Transition Plan provides a summary of all barriers found, a strategy and timeline for their removal, as well as planning level cost estimates. The Final Transition Plan identified approximately 13,600 barriers with a projected planning level cost estimate of \$31m for barrier removal systemwide, although actual costs are expected to be significantly higher based upon work completed to date.

OTHER

\$50,000 Current Revenue is budgeted for required ADA retrofits to leased properties that cannot be funded with general obligation bonds.

FISCAL NOTE

FY19 Special Appropriation of \$100k in State Aid. FY18 Appr. for \$100k Bond Bill for MLK Recreational Park. FY18 reduction of \$10k in Current Revenue for fiscal capacity. FY18 reduction of \$49k in Current Revenue to reflect the FY18 Savings Plan. Prior year partial capitalization of expenditures through FY16 totaled \$3,648,000.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project addresses countywide ballfield needs by funding ballfield-related improvements on parkland, school sites, and other public sites. Improvements may include, but are not limited to, ballfield lighting, irrigation, drainage improvements, bleachers, fencing, backstops, soil improvements, turf and infield establishment/renovation, reconfigurations, program support elements, and field upgrades. Generally, ballfields to be constructed as part of new park construction or reconstruction will be shown in the individual new park construction and/or reconstruction PDFs.

COST CHANGE

Increased scope to meet County needs and the addition of two fiscal years to this ongoing project.

PROJECT JUSTIFICATION

2012 Parks, Recreation and Open Space (PROS) Plan. Montgomery County users of parks and recreation facilities identified a serious shortage of ballfields throughout the County. The Ballfield Work Group Reports, Phases 1 and 2, 1999.

FISCAL NOTE

FY21-26 \$300k in CUPF Current Revenues. FY21 reduction of \$500k in G.O. Bonds for affordability. FY20 \$250k in CUPF Current Revenues approved for renovations of non-synthetic turf school fields and \$174k in Current Revenue - General approved to renovate the White Oak Recreation Center ballfield. FY19 funding source for MCPS ballfield improvement switched from Intergovernmental to Current Revenue: CUPF. FY17-19 \$1m in Community Use of Public Facilities (CUPF) operating funds transferred in to renovate MCPS ballfields. Prior year partial capitalization of expenditures through FY16 totaled \$15,642,000. FY15-16 transfer out \$250k GO Bonds to Urban Park Elements P871540. FY14 transfer in \$40K GO bonds from Pollution Prevention P078701.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

In January 1999, the Planning Board established a Work Group comprised of major sport user groups, public agencies and the Countywide Recreation Advisory Board to address the acute shortages of ballfields in the County.

PROJECT DESCRIPTION

This project funds the redevelopment of an abandoned maintenance yard by converting it to an environmental-friendly educational site using the principles of Sustainable Education Every Day (SEED) Classroom design and construction. The building will be designed for net-zero energy and water usage, and provides an expansion of the program space for the Black Hill Regional Park Nature Center Program.

ESTIMATED SCHEDULE

Design to begin FY20 using existing funding. Construction beginning in FY21.

COST CHANGE

\$250k in State Aid in FY21 shifted from Minor New Construction-NL Parks (FY20 Bond Bill).

PROJECT JUSTIFICATION

The project site was used as a maintenance yard (MY) until 2004 when it was replaced by a new MY. Black Hill Nature Center and Visitor Center serve more than 35,000 visitors every year. In 2015 alone, the number of people attending the nature center program doubled. With the Cabin Branch Neighborhood currently under construction, the need for additional programming space is expected to increase and the existing 25-person auditorium is falling short of demand to serve the growing community.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

The Blair High School athletic field renovation project will include two surfaces which can be used for multiple sports for improved Montgomery County Public School (MCPS) athletic competition for practices and games for the largest high school in Maryland, improved safety and playability for the school's physical education program, and expanded community use in an area of high demand with limited land development opportunities. The proposed improvement projects are separated into two phases as the construction is proposed during a small window during MCPS's summer breaks. Both fields are proposed to have investments into soils, grading, drainage, lighting and irrigation to promote improved playability and safety for both the community and Blair High School students.

- Phase one of the project will focus on the track field with improvements to include irrigation, drainage, grading, bermudagrass, portable goals and lights.
- Phase two of the project will focus on the multi-purpose field directly behind the school with improvements to include irrigation, grading, bermudagrass, softball infield improvements, portable goals and lights.

LOCATION

51 University Blvd. E, Silver Spring, MD 20901

PROJECT JUSTIFICATION

Blair High School represents a unique opportunity for community recreation - particularly on the lower eastside of the County where land acquisition and athletic field development is extremely limited. Blair High School is one of the largest schools in Maryland and these upgrades provide improved playing conditions for both physical education and competitive sporting events. Montgomery Parks is actively working to increase field inventory and capacity as this section of the County continues to see growth with limited recreation opportunities for both youth and adults. Other investments in the vicinity include the North Four Corners soccer field and the Pinecrest soccer field which are both smaller fields, typically used for youth sports. This project would represent a combination of lighted fields in the Southeastern most part of the County. Outside of Blair High School, the closest lighted diamond fields are at Wheaton Regional Park, and the closest lighted rectangle field is at Martin Luther King Recreational Park. These locations can have long travel times for our lower county residents due to heavy evening traffic. Blair High School already has lights on the baseball, softball, and stadium field. Full-size rectangle fields are extremely limited along the lower section of Route 29. This project would increase recreational opportunities to vital landlocked areas such as Takoma Park. As the facility already has established parking, this project reduces the need for additional impervious surfaces. Ample parking around the current school on weekends provides the community with safe access to these fields. Public transportation is already available through a number of routes that converge on the Four Corners area connecting recreational opportunities to public transportation. Near the intersection of 495 and 95, this site, with a total of three rectangle fields and current parking infrastructure, could handle tournaments on weekends outside of school use. These tournaments draw participants not only from Montgomery County but also from surrounding counties and states, which could provide needed tourism to promote economic growth. This upgrade also provides an increase in lighted diamond field inventory which has been identified as a major limiting factor for facility use.

PROJECT DESCRIPTION

THIS PROJECT WAS NOT APPROVED FOR THE FY21-26 CIP.

The Capital Crescent Trail (CCT) is the most popular shared-use trail in Montgomery County, connecting Washington, D.C. with Silver Spring. In Bethesda, the CCT crosses Little Falls Parkway, a four lane, Park-owned road. The crossing has been the site of numerous incidents, including a bicyclist fatality in 2016. In 2017, M-NCPPC implemented an interim road diet to reduce vehicle speeds, increasing safety at the crossing. This project is to design and construct permanent safety improvements for the trail crossing. Staff facility plan recommendation was presented to Planning Board in June 2018, which subsequently approved diversion of the Trail to the intersection of Little Falls Parkway and Arlington Road to cross with the traffic signal, and re-open all four lanes of Little Falls Parkway to vehicle traffic.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

PROJECT DESCRIPTION

This project funds renovations or new construction at M-NCPPC-owned Enterprise facilities that operate in a manner similar to private business enterprises. Enterprise facilities include: Black Hill boats, Lake Needwood boats, Little Bennett campground, South Germantown Mini-golf and Splash Playground, Cabin John Ice Rink, Wheaton Ice Arena, Wheaton Sports Pavilion, Pauline Betz Addie Tennis facility, Wheaton Indoor Tennis, Cabin John Train, Wheaton Train and Carousel, Brookside Gardens, South Germantown Driving Range, Rockwood Manor and Seneca Lodge Event Centers.. The PDF supports planning, design, and construction-related activities, with an emphasis on renovation of existing Enterprise facilities. Projects may include minor renovations, fire suppression system installations, roof replacements, lighting improvements, and associated support facilities. All projects are subject to the availability of funds.

COST CHANGE

Cost increases reflect the addition of FY25 as well as costs for the Ridge Road Ice Rink project.

PROJECT JUSTIFICATION

Infrastructure Inventory and Assessment of Park Components, 2008

FISCAL NOTE

The Ridge Road Ice Rink is financed through Revenue Bonds instead of Enterprise Current Revenue beginning in FY22. Prior year partial capitalization of expenditures through FY16 totaled \$2,907,000. M-NCPPC's Enterprise Facilities provide recreational and cultural activities that operate in a manner similar to private business enterprises. User fees replenish the enterprise fund that sustains all revenue-generating facilities in the parks system.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

The approximately 4-acre park is located at 11420 Old Georgetown Road in the Luxmanor community of North Bethesda. The purpose of the project is to rehabilitate the existing Josiah Henson Park and create a heritage tourism destination. The project includes converting the historic Riley/Bolten House to a public museum; constructing a new 2,900 square foot visitor center with bus-drop off area and four-car parking lot on the former Rozier property; and new landscape sitework and outdoor interpretation that will make the park more accessible for visitors and convey its former appearance as a plantation.

ESTIMATED SCHEDULE

Construction began in FY19 and is underway. Project completion expected December 2020.

COST CHANGE

Unforeseen conditions in the historic house (including substantial termite damage that led to structural problems throughout) and connections to existing utilities that was more extensive than anticipated have resulted in the need for additional funding - partially funded by State Aid.

PROJECT JUSTIFICATION

Montgomery County Master Plan for Historic Preservation, 1979, identified the property as resource #30/6, "Uncle Tom's Cabin". Josiah Henson Special Park Master Plan, December 2010. Josiah Henson Park was the subject of an approved facility plan in June 2013. White Flint Sector Plan, April 2010; 2012 Park Recreation and Open Space (PROS) plan, July 2012.

OTHER

The completed project will be a first-class museum attracting visitors with its educational exhibits and programming.

FISCAL NOTE

FY20 Supplemental Appropriation of \$250k in State Aid. MNCPPC was awarded a State Bond Bill of \$100,000 in FY15. FY19 Maryland Heritage Area Grant of \$50,000. FY19 Special Appropriation added \$630k in G.O. Bonds, \$200k in State Aid, \$500k in Program Open Space, and reduced Contributions by \$650k (funding was also accelerated from FY20/21 into FY19).

DISCLOSURES

A pedestrian impact analysis has been completed for this project. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

The Little Bennett Regional Park Day Use Area, located on the east side of MD Route 355 north of Comus Road, is a 65-acre existing meadow adjacent to wooded areas of the park and Soper's Branch stream. The day use area is designed to provide nature-based recreation and protects and interprets the existing meadow and adjacent forest habitat. The program of requirements from the master plan is accomplished in a uniquely sustainable manner that interprets the natural and cultural landscapes of the area. The project includes a multi-purpose outdoor classroom building, terraces and amphitheater, group picnic areas and shelter, play complex, learning alcoves, two entrances and an access road, parking, hard and natural surface trails, bridges and boardwalks with overlooks, signage and interpretation, stormwater management, meadow restoration with non-native invasive eradication, managed forest succession and habitat enhancement along the stream buffer.

ESTIMATED SCHEDULE

Project is in design. Additional project work has been postponed to beyond the six year period based on affordability.

PROJECT JUSTIFICATION

The Montgomery County Planning Board approved the park facility plan on October 6, 2011; Countywide Park Trails Plan (2008); Little Bennett Regional Park Master Plan (2007); 2005 Land Preservation, Parks, and Recreation Plan (LPPRP); Countywide Bikeways Functional Master Plan (2005); Clarksburg Master Plan and Hyattstown Special Study Area (1994); Vision 2030: The Parks and Recreation Strategic Plan (2011); 2012 Park, Recreation and Open Space (PROS) Plan.

PROJECT DESCRIPTION

The North Branch Hiker-Biker Trail will be a new trail located within Rock Creek Regional Park and the North Branch Stream Valley Park Unit 4 and is approximately 2.2 miles in length including connector trails. There are two segments of this trail. The first will connect the Lake Frank Lakeside Trail to the Emory Lane Bikeway at the intersection of Muncaster Mill Road. A 20 space parking lot will be built off of Muncaster Mill Road for trailhead parking. Improvements to the intersection of Muncaster Mill Road and Emory Lane are proposed and coordinated jointly between MC-DOT, SHA and M-NCPPC. The second segment connects the Route 200 Bikeway to the future trail being built by the developer at the Preserve at Rock Creek.

ESTIMATED SCHEDULE

Construction to begin in FY22.

PROJECT JUSTIFICATION

The Facility Plan was approved by the MCPB on June 27, 2013. The trail has been recommended in multiple master plans including the 2005 Olney Master Plan, 2004 Upper Rock Creek Area Master Plan, the 2008 Countywide Park Trails Plan, the 2000 Rock Creek Regional Park Master Plan and the 2008 Upper Rock Creek Trail Corridor Plan.

FISCAL NOTE

M-NCPPC was awarded a Transportation Alternatives Program Grant for the amount of \$2,000,000 from the Maryland State Highway Administration in July 2015. \$282k WSSC reimbursement for disturbances in the North Branch Area.

DISCLOSURES

PROJECT DESCRIPTION

This project schedules renovation, modernization, conversion, and/or replacement of aging, unsafe, or obsolete local park facilities and features. The park system contains over 300 local parks and many different types of facilities, many of which are over 30 years old. There are six subprojects, organized by categories of infrastructure, within this project, and each has a prioritized list of candidate projects, but projects may change or be grouped as needs arise or economies-of-scale can be achieved. Subprojects: Boundary Markings, Minor Renovations, Park Building Renovations, Play Equipment, Resurfacing Parking Lots and Paths, and Court Renovations. Projects include modernizations to meet current codes, practices, and standards.

COST CHANGE

Increase due to additional State Aid, an increase in program scope and the addition of two fiscal years to this ongoing project.

PROJECT JUSTIFICATION

Renovations scheduled in this project are based on ongoing infrastructure assessments, as well as requests from park operations. Failure to proactively renovate or replace aging park facilities and features before the end of their useful life results in decreased levels of service to park users, potential safety risks, and an overall increase in capital costs as repairs become emergencies.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$37,611,000. FY20 Supplemental Appropriation of \$250k in State Aid for Centerway LP. MNCPPC was awarded two State Bond Bills in FY18 of \$50k for Good Hope LP and \$125k for Stewartown LP. State Bond Bill in FY15 of \$75k for West Fairland LP. FY15 transferred in \$560k P&P Bonds from North Four Corners LP, #078706. In FY10, \$285k was transferred in from Broadacres Local Park PDF 058702. In FY09, \$74k was transferred in from PLAR Athletic Field Renovation PDF 998700. In FY09, the Town of Chevy Chase donated \$30k for Playground Improvements at Leland Local Park. FY21 State Aid of \$350k added for improvements at Longbeach-Garland Neighborhood Park and State Aid of \$200k for play equipment at Olney Family Neighborhood Park and State Aid of \$200k for play equipment at Olney Family Neighborhood Park.

PROJECT DESCRIPTION

This PDF funds continuing efforts to provide water quality improvements and enhance environmental conditions throughout the park system. This work may include stormwater retrofits, outfall stabilization, riparian enhancements, and native plantings. M-NCPPC owns over 60 farm ponds, lakes, constructed wetlands, irrigation ponds, recreational ponds, nature ponds, and historic dams that do not qualify for funding through the County's Water Quality Protection Charge. Projects are prioritized based on field inspections and preliminary engineering.

COST CHANGE

Increase due to the addition of two fiscal years to this ongoing project, and FY21 reduction of \$50k for affordability.

PROJECT JUSTIFICATION

The NPDES General Discharge Permit for Stormwater Associated with Industrial Facilities, Permit No. 02 SW issued by the Maryland Department of the Environment (MDE), requires implementation of Stormwater Pollution Prevention Plans (SWPPP) at each maintenance yard. The MDE Dam Safety Program requires regular aesthetic maintenance, tri-annual inspection, and periodic rehabilitation of all pond facilities to maintain their function and structural integrity. NPDES Municipal Separate Storm Sewer System (MS4) Permit.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$6,029,000. In FY16 received an additional \$600k from SHA for ICC Mitigation. State Bond Bill of \$50k received in 2015 for West Fairland Local Park. FY14 transferred in FY14, \$40k GO bonds from Ballfield Improvements, #008720. In FY13, transferred in \$200k GO Bonds from Lake Needwood Modifications #098708. In FY18, County Council approved a FY18 Special Appropriation totaling \$100,000 in Current Revenue. Water Quality Current Revenue replaces G.O. Bonds in FY19. Maryland Department of the Environment (MDE) Water Quality Revolving Loan Funds (Long Term Financing) backed by WQPC replace G.O. Bonds in FY20 and beyond. FY18 reduction of \$55,000 in Current Revenue reflecting the FY18 Savings Plan.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

The Rock Creek Trail Pedestrian Bridge spans Veirs Mill Road at Aspen Hill Road in Rockville. It connects portions of the 15-mile hard surface trail from Beach Drive at the District of Columbia line to Lake Needwood in Rock Creek Regional Park. The trail currently crosses Veirs Mill Road at grade at its signalized intersection with Aspen Hill Road. To the north of Veirs Mill Road, the trail is on sidewalk for approximately 0.2 miles traversing Aspen Hill Road, Adrian Street, Baltic Avenue, and finally the access drive to Aspen Hill Local Park before continuing northward as a trail. The proposed pedestrian bridge will provide a grade separated crossing for the Rock Creek Hiker-Biker Trail and eliminates the use of the residential section. It will also provide the opportunity for local residents of the Aspen Hill community to cross Veirs Mill Road on the bridge to access bus transit or other destinations without crossing at grade the busy intersection of Veirs Mill Road and Aspen Hill Road.

ESTIMATED SCHEDULE

Pending Closeout.

COST CHANGE

FY20 corrected to reflect project balance and remove expired TAP Grant funding.

PROJECT JUSTIFICATION

February 13, 2001, Resolution 14-773. The Planning Board approved the facility plan on September 11, 2003. Aspen Hill Master Plan, approved 1994. Countywide Plan of Trails, approved 1998.

FISCAL NOTE

In FY10, \$269,000 GO Bonds transferred in from Pope Farm Nursery, PDF #058707. In FY10, M-NCPPC received \$261,000 in developer contributions for Policy Area Mobility Review (PAMR) mitigation. This contribution will off-set \$261,000 in POS funds. In FY10, \$175,000 (General Obligation Bonds) was transferred in from Pope Farm Nursery Utilities Upgrade, PDF# 058707. FY09 amendment and supplemental appropriation: \$1,589,000 in Transportation Enhancement Program funds.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

As a result of development in urban and suburban watersheds, stream channels are subject to increased storm water flows that result in severely eroded stream banks. This project makes corrective improvements to damaged stream channels, floodplains, and tributaries in stream valley parks and constructs new stormwater management (SWM) facilities and associated riparian enhancements to improve watershed conditions. Stream erosion problems include stream sedimentation, destruction of aquatic habitat, undercutting of stream banks, blockage of migration routes, loss of floodplain access, tree loss, and damage to infrastructure. Rock and wood revetments are used in association with reforestation, floodplain enhancements, outfall enhancements, and other stream protection techniques to prevent continued erosion and improve aquatic habitat. Stream protection projects must be examined from a watershed perspective to identify/control the source of problems. Wherever possible new SWM facilities will be built to control water flows prior to entering the stream channel to help the watershed return to a more stable equilibrium. Parks often implements these improvements with other stream valley improvements to improve cost effectiveness and ensure infrastructure protection. This project also includes reforestation in stream valley parks.

COST CHANGE

Increase due to the addition of two fiscal years to this ongoing project and a contribution from the Congressional County Club to fund environmental enhancement projects.

PROJECT JUSTIFICATION

The project meets Montgomery County's water quality goals, Chapter 19, Article IV of the Montgomery County Code: to protect, maintain, and restore high quality chemical, physical, and biological conditions in the waters of the State in the County. This project is also supported by the Countywide Stream Protection Strategy, Comprehensive Watershed Inventories, and Parks' Phase II NPDES MS4 Permit commitments.

OTHER

The Montgomery Parks Department of the Maryland-National Capital Park and Planning Commission (M-NCPPC) and the Montgomery County Department of Environmental Protection (DEP) have agreed that M-NCPPC will serve as the lead agency for implementing stream restoration projects including long term monitoring and maintenance, that are located wholly or mostly on parkland, and will implement the following additional stream restoration projects in the FY 19-24 CIP through this project; Clearspring Manor, Glenallan, Stoneybrook (Beach Drive to Montrose Avenue), and Grosvenor (Beach Drive to Rockville Pike). Previously, DEP had begun design work on these streams segments which are located predominantly on parkland. In FY 18, DEP will provide all design work for these projects to M-NCPPC for design completion, permitting, and construction. M-NCPPC has agreed that all MS4 credits generated from these projects will be credited to the County's future MS4 permit and M-NCPPC must deliver the restored impervious acres no later than Dec. 31, 2023. M-NCPPC will provide appropriate updates at key project milestones to ensure that impervious acreage credits are achieved in the timeframe required, in addition to providing the long-term monitoring and maintenance required for the County to maintain the impervious acreage credit. These projects are currently estimated to have a combined cost of \$2.4M, providing approximately 44 acres of credit. M-NCPPC will utilize its resources for completing design/permitting. M-NCPPC will provide updated schedule and cost information on all projects within FY19 for construction funding allocation from this project beginning in FY 20, based on MDE's Water Quality

Revolving Loan Fund (WQRLF) cycle timeframes. M-NCPPC and DEP will immediately begin working on an MOU detailing how projects completed by Parks, funded with WQPF dollars, with MS4 credits going to the DEP will be handled. M-NCPPC will document all MS4 credits created through these projects in accordance with MDE requirements to obtain State approval for the Permit credits. M-NCPPC will continue to identify future stream restoration projects throughout the Stream Valley Park system through inter-agency collaboration that provide ecological benefit, infrastructure protection, MS4 credits, and other watershed benefits for future implementation. M-NCPPC recognizes that stream restoration projects with relatively small segments on Park property may be selected by the County's contractor. If selected by the County's contractor and approved by DEP with concurrence from Parks, the County's contractor will need to obtain a Park Permit and comply with all M-NCPPC requirements.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$12,854,000. FY13 transfer in of \$129K GO Bonds from Lake Needwood Modifications #098708. Water Quality Current Revenue replaces G.O. Bonds in FY19. Maryland Department of the Environment (MDE) Water Quality Revolving Loan Funds (Long Term Financing) replaces G.O. Bonds in FY20 and beyond. In FY20, \$800,000 in Current Revenue: Water Quality Protection Fund replaces Long Term Financing, and in FY21, \$1,500,000 in Current Revenue: Water Quality Protection Fund replaces Long Term Financing. In addition, \$600,000 in Long Term Financing is slipped to from FY20 to FY21. In FY21, received \$600k in Contributions for the Cabin John Watershed.

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This PDF funds design and construction of hard surface trail renovations. Hard surface trails will accommodate bicyclists, pedestrians, strollers, inline skaters, and people with disabilities, where feasible. Projects include improvements to trails of countywide significance, throughout the Stream Valley Parks and Recreational/Regional Parks. These improvements include the renovation of trails including trail signage, safety improvements, minor relocations, drainage improvements, site restoration, amenities (i.e. drinking fountains, benches, trailheads), etc. Trail design will use Americans with Disabilities Act (ADA) Outdoor Recreation Guidelines and American Association of State Highway and Transportation standards while protecting natural resources.

Scheduled maintenance and renovation promotes safety and reduces long-term maintenance costs. In park user surveys, hiking and biking on trails is the most frequent recreation activity reported. Biking and walking paths top respondents' lists of desired facilities or greatest facility shortages. 2008 Countywide Park Trails 2005 Land Preservation, Park and Recreation Plan

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$5,284,000.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project funds design and construction of access to natural, undeveloped parkland throughout Stream Valley Parks, Recreational/Regional Parks, Local Parks, and Conservation Areas. The projects will create and improve natural surface trails, and it will also help support natural resource-based recreation uses such as bicycling, hiking, running, horseback riding, bird watching, nature photography, wildlife viewing, kayaking, rowing, canoeing, and fishing, as identified in the 2012 Park, Recreation and Open Space (PROS) Plan. Surfaces include dirt, wood chip, soil mixtures, gravel/stone, bridges, boardwalks or other elevated surfaces; they are generally narrower than hard surface trails. Work may include grading, drainage, signage, bridges, culverts, edging, realignments, restoration, etc. Natural surface trails will utilize Americans with Disabilities Act (ADA) guidelines for Outdoor Recreation, but access may be limited due to site constraints.

COST CHANGE

Increase due to program scope expansion, a contribution from the Congressional Country Club for trail improvements, State Aid funding for Fairland Recreational Park trail improvements, and the addition of two fiscal years to this ongoing project.

PROJECT JUSTIFICATION

Improvements address only the highest priority needs for each trail and presume some volunteer assistance for hand labor. Projects in Rock Creek, Rachel Carson, Little Bennett, and Black Hill implement park master plans. This CIP Project implements the natural surface recreational trail component of the Countywide Park Trails Plan and trail recommendations in area master plans. 2015 Countywide Park Trails 2005 Land Preservation, Park and Recreation Plan.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$3,331,000. MNCPPC was awarded a State Bond Bill of \$105k in FY18 for Western Piedmont Trail Connector. FY14 transfer out of \$45,000 GO Bonds to Montrose Trail, #038707. FY18 current revenue reduced \$30k to reflect the FY18 Savings Plan. In FY21, added Contributions for trail improvements near the Cabin John Watershed. GO bonds are intended to be used for bridge construction.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This PDF funds design and construction of improvements to Trail - Road Intersections based on the County's adopted Vision Zero Action Plan. This PDF will create safety improvements and traffic calming for intersections of both Paved and Natural Surface Trails throughout the Park system. Projects may include signage, signalization, pavement marking, raised crosswalks, traffic calming measures, grading, drainage, pavement rehabilitation, etc. Trail intersections were initially analyzed and prioritized, but schedules may change as needs arise and implementation opportunities occur. Presently, there are 79 main hard surface trails at-grade crossings of roads, 47 natural surface trail at-grade crossings and an additional 54 hard-surface connector trail crossings for a total of 180 crossings identified.

COST CHANGE

Increase in funding to construct improvements as per the Department's Trail Intersection Safety Improvement Study of 156 intersections along main trails and connector trails.

PROJECT JUSTIFICATION

Expedited Bill 33-13, Effective 12-03-2014

DISCLOSURES

A pedestrian impact analysis has been completed for this project.
